March 24, 1997
Revised: April 16, 1997

This release addresses the following Service Request:

**Service Request 13426**

Service Request 13426 asked that a one-time program be written to process the lump sum payment of $125.00 to the eligible employees in the AFSCME-represented Service (SX) Unit as of October 1, 1996. An ‘AP’ pay transaction should be written for each eligible employee to receive the lump sum payment. Where the retroactive range payments were charged against multiple Full Accounting Units (FAU), the $125.00 must be proportionately charged to each unique FAU, and the sum of the calculated individual amounts must total $125.00.

**Program**

**PPOT1116**

Program PPOT1116 has been written to write one-time AP transactions for the Compute to pay eligible AFSCME-represented Service Unit Employees a lump sum payment of $125.00.
Bind Members

PPOT1116

PPOT1116 is the Plan bind for one-time program PPOT1116.

PPOT1116 does not contain SQL statements, but PPOT1116 does call DB2 utility program PPCALUTL and PPDOSUT2 which do contain SQL statements.

Table Updates

Description of Service (DOS)

A DOS code of LSS has been added to the DOS Table to describe the lump sum payment for the Compute Process.

The transactions supplied in PAYDIST.R1116.CARDLIB(DOSTEST) are for Test only.

Installation Instructions

Installation of this release requires the following steps:

1. Install one-time program PPOT1116.
2. DB2 pre-compile, compile, and link one-time program PPOT1116 into the batch loadlib (LOADLIB).
3. Bind Plan for PPOT1116
4. Execute and verify the Test Plan, per supplied instructions.
5. Perform any desired local testing.
6. Install all the objects in production.
7. The production JCL used for executing the one-time program can be modeled after the test JCL supplied with this release.
8. Update the Production VSAM DOS Table.

   The update transactions in PAYDIST.R1116.CARDLIB(DOSTEST) and the completed facsimile form UPAY650 sent with this release are supplied for Test only.

   Each campus must obtain a Description of Service Table UPAY650 form from the campus Payroll office to set up the special LSS DOS Code used for lump sum payment transactions. Do not use the test/transactions included with this release. Run PPP010 to update the VSAM DOS Code Table.

9. Run PPP851 to update the Production DB2 DOS Table.
Timing of Installation

Installation of this release is not urgent.

As usual, campuses are encouraged to install this release in as timely a fashion as possible, and in the normal numeric sequence of releases.

If there are any questions, please send electronic mail to Jackson.Quan@ucop.edu, or call at (510) 987-0464.
