Installation Instructions

This document provides installation instructions for this release. Review these instructions carefully before proceeding with installation.
Move Employees from FHP Health Care to PacifiCare
Eliminate Grandfathered AD&D Amounts
Installation Instructions

**Bind Member Installation**

1. Install the **one-time** Bind member listed in the following table.

<table>
<thead>
<tr>
<th>Modified Bind Members</th>
<th>Installed?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPOT1149</td>
<td></td>
</tr>
</tbody>
</table>

**Program Preparation**

*Note:* At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

*Note:* "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

1. Install, compile and link the **one-time** program listed in the following table.

<table>
<thead>
<tr>
<th>Modified Program</th>
<th>DB2?</th>
<th>Compile</th>
<th>PLAN Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPOT1149</td>
<td>YES</td>
<td>BATCH</td>
<td>YES</td>
<td></td>
</tr>
</tbody>
</table>

**CICS Help Data Update**

1. Import the revised online Help text for data elements 0280(AD&D Principal Sum) and 0292 (Medical Plan Code) from data in HELPDDSE (Refer to sample JCL(LOADHELP)).

**Testing**

Perform installation verification testing as described in the Test Plan.

Installation Instructions

**JCL**

**PPOT1149:** The test JCL(PPOT1149) can be used as a sample for creating the JCL for one time program PPOT1149. Create appropriate Run Specification Records for running PPOT1149 in non-update and update mode (see UPAY661).

**Install in Production**

1) Install all the objects in Production.

2) Run PPP010 to update the following VSAM CTL tables:
   a) Benefits Rates Table: Accidental Death & Dismemberment: Eliminate the non-standard AD&D Principal Sums and their related rates. The update transactions should be those effective for 1998, and can be obtained from the standard year-end FTP site. Confirm the transactions from the Payroll Manager.
   b) Benefits Rates Table: Medical: Eliminate the rate entry for HG, FHP Health Care and add new plan WH, Western Health Advantage. The update transactions should be those effective for 1998, and can be obtained from the standard year-end FTP site. Confirm the transactions from the Payroll Manager.
   c) Data Element Table: Eliminate the non-standard AD&D Principal Sums (Data Element 0280). Eliminate the ‘HG’ and add the “WH” Medical Plan Code (Data Element 0292). Use the transactions provided in CARDLIB(DET1149), or key the transactions from the facsimile UPAY553 form.

3) Run PPP851 to update the following DB2 CTL tables.
   a) Data Element Table (06)
   b) Benefits Rates Table (14)

4) Run the one-time program in non-update mode. Review the reports for expected results.

5) Run the one-time program in update mode.

6) Run PPP742 with the Employee Change File created by the one-time program to update History.
