Error Report 1585

Error Report 1585 requests that functionality be added to the report program PPP583 so that the report 'Statement of Citizen Status Renewal' shows a page break on Home Department whenever it is produced in Home Department sequence.

This release adds that functionality to PPP583.

DB2 Programs

PPP583

This modified batch program produces the report, 'Statement of Citizenship Status Renewal' in 3 different sequences. This release will add a page break to the Home Department sequence logic. Whenever a change occurs in Home Department, the report will start a new page.
Test Plan

To test whether the PPP583 program correctly pages the report, follow the R1197 Test Plan Steps 9, 10 and 11. Run these tests using the same Test EDB that was released in R1197.

1. Run all 3 sequences with the previous version of the PPP583 program.
   Result: all three sequences of the report show no forced page breaks.

2. Install the new version of PPP583.

3. Run all 3 sequences with the new version of the PPP583 program.
   Result: The reports in sequence by Employee Name, and Employee ID show no change. However, the report in Home Department sequence shows a page break on each change in Home Department.

Installation Instructions

1. Install the modified batch program, PPP583.

2. DB2 pre-compile, compile and link PPP583.

3. Bind the plan.

4. Perform the above test plan.

5. Perform any local tests.

6. Install the program in production.

Timing of Installation

The installation of this release is Not Urgent.

As usual, campuses are encouraged to install this release in as timely a fashion as possible, and in the normal numeric sequence of releases.

If there are any questions, please send electronic mail to Roy.Staples@ucop.edu, or call at (510) 987-0692.
