Service Request 15258

Payroll Release 1289, dated June 19, 2000, added the Appointment FLSA Status Indicator (EDB 2005) to the EDB.

This Service Request adds EDB 2005 to the Corporate Personnel System/Benefits Counseling System (CPS/BCS) interface file produced by program PPP712.

The length of the record defined by copy member (CPWSXACP) remains unchanged. The one byte being used for EDB 2005 is from an existing COBOL filler already in CPWSXACP.

Program

PPP712

PPP712 writes the CPS/BCS file (TRNS712 (Appointment Out)). The program has been modified to include an additional field as requested in SR 15258.

Copymember

CPWSXACP

CPWSXACP defines the CPS/BCS file structure for PPP712. The field (EDB 2005) is now included in CPWSXACP.

Test Plan

A separate Test Plan document has been included with this release.

Installation Instructions

1. Install the **modified** COBOL program PPP712.
2. Install the **modified** copy member CPWSXACP.
3. DB2 pre-compile, compile, and link the **modified** batch program PPP712 into the batch loadlib (LOADLIB).
4. Bind Plan for PPP712.
5. Execute the Test Plan (above). Perform any desired additional campus testing.
6. Install the **modified** PPP712 into production.

Timing of Installation

The installation of this release is date mandated. It must be installed prior to creation of the CPS/BCS appointment file for July, 2001 (July month end, files due at UCOP by August 10, 2001).

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.
