Service Request 17659

Release 1386 provided modifications to PPS to derive a new Period of Initial Eligibility (PIE) End Date when an employee’s Assigned BELI changes to a value that qualifies the employee for an increased level of benefits. The establishment of the PIE allows newly eligible employees to use the web based enrollment process for health and welfare benefits.

Modifications were also made in release 1386 to the daily process that accepts transactions from the web based enrollment process to allow an employee currently enrolled in Core Medical (CM) to enroll in a career plan. It has subsequently been determined that Medical Employee Coverage Effective Date (ECED) and the Medical Dependent Coverage Effective Dates (DCEDs) are not being re-derived when a career medical enrollment transaction is processed for an employee enrolled in ‘CM’.

This release provides modifications to correctly trigger derivation of Medical Effective Dates when an employee changes from core to career medical enrollment.

Bind Members

PPP130
PPEC705 has been added to the plan bind for PPP130.

Table Updates

Processing Group Table
PPEC705 had been added to run during the special process of PPP130. See document pgtprod.pdf issued with this release for the transaction.
Test Plan

Confirm that PPEC705 has been successfully added to Processing Group 105.

Installation Instructions

1. Run PPP010 to update the following VSAM CTL tables
   • Processing Group Table (PPPPGT): Use the transactions in CARDLIB (PGTPROD); or key from the provided UPAY803 facsimile.

2. Run PPP851 to update the following DB2 CTL tables.
   • Processing Group Table (36)

3. Install and bind the modified plan bind for PPP130.

Timing of Installation

The installation of this release is Urgent. Install this modification with Release 1386. If Release 1386 has been installed, install this modification immediately.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to Phil.Thompson@ucop.edu, or call at (510) 987-0468.
