Service Request 3087

Service Request 3087 addresses the redesign of the Payroll/Personnel System (PPS) Control Table Update. The basic structure for the change was issued in Release 1401. This release provides another phase in the revision of the Control Table Update process. It addresses the Bargaining Unit tables.

Some modifications have been made in Add, Change and Delete actions. Previously some tables only allowed Add and Delete actions. Forms have been modified to reflect the new A/C/D codes.

Additionally, a new column has been added to the PPPBUT table. This “Merit Selection” field will provide a way to define bargaining units which can be processed via the future Web Merit process. The column is not populated at this time. The history table PPPBUTH has also been modified to contain the new column.

Error Report 2029

Error report 2029 reported that Bargaining Unit Code BX was not included in the online Help text for EDB Data Element 2029. It has now been added to the Help text and Data Dictionary.

Programs, Copymembers, Include Members, DDL Members, Bind Members, Forms

Please refer to the Object List document which accompanies this release.
Table Updates

System Messages Table
One message has been added. See document msgprod.pdf issued with this release for the text of the messages.

Table of Tables
The Table of Tables controls the new DB2 Control Table Update process. Table ID’s on the Table of Tables are defined for direct DB2 update via PPP004. It has been modified to include the Bargaining Unit Table (Table 17).

Test Plan

An installation Test Plan is provided with this release.

Installation Instructions

An Installation Instructions document is provided with this release.

Timing of Installation

The installation of this release is Not Urgent. However, future Base releases will presume these modifications are in place. In some cases, as discussed above, ADC codes on released Base Control Table transactions might not work correctly if processed by PPP010.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to Phil.Thompson@ucop.edu, or call at (510) 987-0468.
