Service Request 14870, Service Fee Calculation/AFSCME PAC Deductions

Following agreement between the University and AFSCME, the University will cease assessing the Service Fee of 7 cents per deduction in connection with the AFSCME PAC deductions, GTNs 480, 481 and 482.

To accommodate this change, the automated PPS process implemented in Release 1344 should be modified. Specifically, in connection with the AFSCME PAC gtns mentioned above, PPS 495 should not calculate and display the Union Service Fee on each GTN total line while maintaining the deduction count.

A mechanism should be provided such that future changes in the calculation of the service fee assessment similar to those addressed in connection with the AFSCME PACs can be accommodated without requiring program modifications.
