Error Report 1807

Error Report 1807 reported an issue concerning when there is more than one deduction for an employee’s current medical plan (such as the regular deduction and a one-time deduction). The Surepay form is showing only one of the deductions, rather than showing the total amount for all deductions. While researching this error it was determined that this issue also applied to dental, vision, and legal deductions.

With this release, the deductions are being accumulated properly for medical, vision, dental, and legal deductions.

Programs

PPP420
PPP420 has been modified to correctly accumulate deductions for medical, vision, dental and legal deductions.

Test Plan

1. Load the EDB
2. Load the CTL
3. Run PPP420
4. Verify that for employee 000050027, on the Surepay Advice statement, the value of Medical Insurance Current Earnings/Deductions is 3,174.00.
Installation Instructions

1. Install the modified COBOL source for program PPP420.
2. DB2 pre-compile, compile and link program PPP420 into the batch loadlib.
3. Bind the plan for PPP420.

Timing of Installation

The installation of this release is Not Urgent. As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.
