## **Service Request 14898**

### **Purpose**

The purpose of this document is to request that additional visa values be added to the PPS. See Service Request 16920 which requested that new Table Edits for the Data Element Table be established to allow validation of valid values by looking up the data element on the Code Translation Table.

### **Background**

Currently, the United States Citizenship & Immigration Services (USCIS) has 62 nonimmigrant visa classifications and new visa classifications are being added. In addition, the USCIS is issuing Employment Authorization Document (EAD) cards to individuals whose visa classifications were not originally included on the EDB 0110 because the visa did not allow employment.

### **Current Process**

Currently, the Data Element Table does not provide enough space so that new visa codes can be added. The DET stores a maximum of 31 visa type values on EDB 0110.

### **Requested Change**

It is requested that new Table Edits for the Data Element Table be established so that following visa types can be added:

- B2 - Temporary visitor for pleasure
- L1 - Specialized knowledge

### **Online Screens**

There are no changes to the online screens.

### **History**

There are no changes to History.

### **Employee Documents**

There are no changes to the IDOCs.

## **On-line Help**

The specified revision to the Data Dictionary entry for Visa Type Code EDB 0110 will make the new value and descriptions available in on-line field-level help. The suggested message text for the two new visa types should be as follows:

- B2 -Temporary visitor for pleasure.
- L1 -Specialized knowledge.

Attachment 1 contains a copy of the Data Dictionary displaying the changes.

## **Code Translation Table**

Attachment 2 contains a copy of the visa translations for the Code Translation Table.

## ***Attachment 1***

***System Number: EDB0110***

***User Access Name: 0110-0***

***Programming Name: VISA\_TYPE IN PPPPAY***

***Revision Date: 03/27/03***
