RE: Release: 1558
Reference Releases: 1549
Service Requests: 80694
Error Reports: 1910
Programs: PPHPAR1, PPP563
CICS Programs: None
Copymembers: None
Include Members: None
DDL Members: None
Bind Members: None
CICS Maps: None
Forms: None
Table Updates: None
Urgency: Urgent (see Timing of Installation)

This release addresses the following error report.

**Error Report 1910**

Release 1549 (Service Request 80694) added valid values of ‘V’ (Merced), ‘E’ (Continuing Education of the Bar (CEB)), ‘B’ (UC Press - Books), and ‘J’ (UC Press - Journals) to the Home Department Location Indicator field in the Home Department Table to identify other organization units that may need to be identified separately within UCRS, or for other Payroll/Personnel System (PPS) reporting purposes.

It has been found that programs PPP563 and PPHPAR1 reference the hard-coded HPA (Historical Premium Activity) Department Location Indicator values for reporting purposes, and the appropriate flag is turned on linking the Department Location Indicator value to the appropriate translated description. Thus, valid Department Location Indicator values of ‘V’, ‘E’, ‘B’, and ‘J’ should also be included in the code translation logic for Consolidated Billing reporting.

**Programs**

**PPP563, PPHPAR1**

Valid values of ‘V’, ‘E’, ‘B’, and ‘J’ have been included in the code translation logic for reporting purposes.

**Test Plan**
An installation Test Plan is provided with this release.

**Installation Instructions**

1. **Program Preparation**

   Note: At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

   Note: "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively), and DUAL-ONLINE programs must be compiled once only and linked into the online library. "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

   a) Install, compile, and link the **modified** programs listed in Table 1

<table>
<thead>
<tr>
<th>Program Name</th>
<th>DB2?</th>
<th>Compile</th>
<th>Package Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPHPARPI1</td>
<td>Yes</td>
<td>Batch</td>
<td>No</td>
<td></td>
</tr>
<tr>
<td>PPP563</td>
<td>Yes</td>
<td>Batch</td>
<td>No</td>
<td></td>
</tr>
</tbody>
</table>

   **Table 1**

2. Bind plans for PPP563 and PPP564

3. Testing

   Perform installation verification testing as described in the Test Plan document.

   Perform any desired additional campus testing.

4. Place modified objects in production.

**Timing of Installation**

The installation of this release is **Urgent**.

For those campuses who have already installed Release 1549 (a date-mandated release), this release must be installed immediately so that the Consolidated Billing Reporting (PPPS63 and PPP564) can properly translate the HPA Department Location Indicator value to the appropriate description, and displayed on the reports.

For those campuses who have not yet installed Release 1549, this release must be installed together with Release 1549.

If there are any questions, please send electronic mail to Jackson.Quan@ucop.edu, or call at (510) 987-0464.
