This release addresses the following Service Request:

**Error Report 1951 - Name changes affecting multiple individuals in IID**

It was reported in error report 1951 that name changes have been affecting multiple IID records for quite a while, so that multiple records in IID will have the same (incorrect) first, middle or last name.

**Program**

**PPP130**

This program performs stand-alone periodic maintenance. When processing name change IVR transactions (transaction type N2) a call to UCIIDMNT is made to process the IID updates. The linkage to that program is an external called CPWSXIID-INTERFACE (copylib member CPWSXIID). This external area was not being initialized by PPP130 for each new employee being processed, so that successive employees were being updated with the same name change data. The program was changed to initialize the external area.

This change will prevent further occurrences of the problem and prevent additional incorrect data to be saved in IID. A later release will address fixing existing incorrect IID data.

**Test Plan**

1. Run job LOADEDDB provided with the release to load the EDB database for testing
2. Run job LOADCTL provided with the release to load the CTL database for testing
3. Run job LOADIID provided with the release to load the IID database for testing
4. Run program PPP130 using the JCL member RUN130 that is provided with this release.
5. The final step of this job performs a SPUFI select for specified employees. Verify that the only record with last name = 'GERBER” had IDB_INDIVIDUAL_ID="000050011” and that it is the only record with IDB_CHANGED_AT showing the current date.

Installation Instructions

Program Preparation

1. Install, compile and link the **modified** program listed in the following table.

<table>
<thead>
<tr>
<th>Program</th>
<th>DB2?</th>
<th>Compile</th>
<th>Package Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPP130</td>
<td>Yes</td>
<td>Batch</td>
<td>No</td>
<td></td>
</tr>
</tbody>
</table>

Plan Binds

1. Bind the plans listed in the following table.

<table>
<thead>
<tr>
<th>Bind Plan</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPP130</td>
<td></td>
</tr>
</tbody>
</table>

Timing of Installation

The installation of this release is **Not Urgent**. As usual, campuses are encouraged to install this release in as timely a fashion as possible, and in the normal numeric sequence of releases.

If there are any questions, please send electronic mail to Maxine.Gerber@ucop.edu, or call at (510) 987-0422.
