Release 1790

Service Request 81768
Add Derived Percent Time to CPS

Installation Instructions

October 29, 2007
Prepared by Pamela L Torres
Information Resources & Communications
Office of the President
University of California
This document provides installation instructions for release 1790. Please review these instructions carefully before proceeding with the installation.

1. **Copylib Member Installation**

1.1 Install modified copy members:

<table>
<thead>
<tr>
<th>Copylib Members</th>
<th>Installed?</th>
</tr>
</thead>
<tbody>
<tr>
<td>CPWSXDCP</td>
<td></td>
</tr>
</tbody>
</table>

2. **COBOL Program Preparation**

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

The “SPAS” designation indicates that a module needs to be compiled and linked into the appropriate SPAS loadlib. If only “SPAS” is indicated in the Compile column, then the module is either a called procedure, or only called by a stored procedure. The SPAS package bind differs from that used for CICS dual-use binds. If the SPAS application is running, a STOP and START PROCEDURE is required to install the new version.

"DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

2.1 Install, compile, and link the following modified programs:

<table>
<thead>
<tr>
<th>PROGRAM</th>
<th>DB2?</th>
<th>Compile Type</th>
<th>Package Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPP713</td>
<td>Y</td>
<td>Batch</td>
<td>No</td>
<td></td>
</tr>
</tbody>
</table>

3. **Plan Binds**

3.1 Bind the following plans:

<table>
<thead>
<tr>
<th>Bind Member</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPP713</td>
<td></td>
</tr>
</tbody>
</table>

4. **Testing**

4.1 Perform installation verification testing as described in the Test Plan. In addition, perform any further local testing.

5. **Install in Production**

5.1 Place modified objects in production.
