This release addresses the following Error Report:

**Error Report 2132**

Error report 2132 states that the Benefit Transaction Generation and Adjustment program PPI735 abended with a S0C7 when Santa Barbara ran it with an input PAR from a XX compute.

Research indicates that the program PPBENOPB that populates the KOPB-OPEB-RATE is never called because all the input PAR records have zero earnings. The abend happened when PPI735 moved the KOPB-OPEB-RATE field that contains low values into a display field.

**Programs**

**PPI735**

PPI735 is the benefit transaction generation and adjustment program based on the Payroll Audit file (PAR) data produced after each compute. In addition, this program is used to produce the month end processing using the expense distribution transactions and the output records from each compute run.

It has been modified to call the PPBENOPB program in the initialization section so that it gets OPEB and BEN ADM rates always regardless of PAR earnings from the System Parameters Table.
Installation Instructions

COBOL Program Preparation

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

"DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

Install, compile, and link the following modified programs:

<table>
<thead>
<tr>
<th>PROGRAM</th>
<th>DB2?</th>
<th>Compile Type</th>
<th>Package Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPI735</td>
<td>Yes</td>
<td>Batch</td>
<td>No</td>
<td></td>
</tr>
</tbody>
</table>

Plan Binds

Bind the following plans:

<table>
<thead>
<tr>
<th>Bind Member</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPI735</td>
<td></td>
</tr>
</tbody>
</table>

Test Plan

A separate Test Plan document is provided for this release.

Timing of Installation

The timing of this release is urgent. This release must be installed prior to running XX computes that do not generate pay.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence. If there are any questions, please send electronic mail to baskar.chitravel@ucop.edu, or call 510-987-0692.
