Release 1809

Service Request 81975
2007 Merit Enhancements to Reports
PPP6751 and PPP6761, Phase II

Installation Instructions

March 13, 2008
Prepared by Janet Kennedy
Information Resources & Communications
Office of the President
University of California
This document provides installation instructions for release 1809. Please review these instructions carefully before proceeding with the installation.

1. **COBOL Program Preparation**

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

"DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

1.1 Install, compile, and link the following modified program:

<table>
<thead>
<tr>
<th>PROGRAM</th>
<th>DB2?</th>
<th>Compile Type</th>
<th>Package Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPP675</td>
<td>Yes</td>
<td>Batch</td>
<td>No</td>
<td></td>
</tr>
</tbody>
</table>

2. **Plan Binds**

2.1 Bind the following plan:

<table>
<thead>
<tr>
<th>Bind Member</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPP675</td>
<td></td>
</tr>
</tbody>
</table>

3. **JCL Changes**

3.1 Add DDname WRNPRT for the new error report PPP6752 to the JCL for program PPP675. A sample of this JCL can be found in PAYDIST.R1809.JCL members RUN675A or RUN675B.

4. **Testing**

4.1 Perform installation verification testing as described in the Test Plan. In addition, perform any further local testing.

5. **Install in Production**

5.1 Place modified objects in production.
