Introduction

Service Request 82172

Service Request 82172 asks that the Staff and Academic Reduction in Time (START) program be re-activated. To display START, the SR asks for changes to the System Messages Table, Consistency Edits, and EDB Inquiry function IAPP.

Service Request 82172 provides the following background information:

In 2003, in response to the California State budget crisis, the University established the Staff and Academic Reduction in Time (START) program. This program was initially effective from June 2003 through June 2005 and then was extended through June 2006.

With the current 2008 California State budget crisis the University is once again considering salary saving programs. The Campus Human Resource Officers (CHRO’s) have recommended that the START program be re-activated. An item is being presented to The Regents at the May 2008 meeting recommending re-establishment of the START program. It is anticipated that The Regents will approve this at the May 2008 Regents meeting. The proposed program would be effective from July 1, 2008 through June 30, 2010.

The proposed START program allows an employee to reduce his/her appointment time from 10% to 50% for a period of at least one month (or 2 bi-weekly periods for biweekly-paid employees). In return, the employee receives full UCRP service credit and vacation and sick leave accrual at the pre-reduction rate.

The original START PPS Release 1482, http://www.ucop.edu/payroll/REL2003/R1482/ established following processes:

A process to establish the percentage amount of START reduction
A process to pass the START reduction time on the monthly UCRS interface file so that UCRS service can be credited
A process to generate vacation and sick leave accrual at the employee’s pre-START rate

Reporting of START participation

PPS Release 1648 extended START for an additional year beyond the original two-year program: http://www.ucop.edu/payroll/REL2005/R1648/

Most of the original, basic START functionality that was established in Release 1482 has been retained in PPS, and it is assumed that this will be verified through testing.

The Regents approved, at the May 2008 meeting, re-establishment of the START program.
