This release addresses the following Service Request:

Service Request 82556

Service Request 82556 asks for the addition of a new DOS code to support Employee Voluntary Separation Programs (eVSP). The new DOS code (VSP) is similar to DOS code VTL (Voluntary Termination – Lump Sum) introduced in R1700; the same editing and reporting requirements for VTL also apply to VSP.

CPWSDOSC

CPWSDOSC defines several DOS constants. DOS VSP has been added as a GASB47 restricted value.

Table Updates

Description of Service

New DOS code VSP has been added to the DOS table.

Installation Instructions

A separate Installation Instructions document is provided for this release.

Test Plan

A separate Test Plan document is provided for this release.
Timing of Installation

The timing of this release is **urgent**. Campuses must install this release prior to issuing any payments under eVSP plans.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.
