

Release 1892

**Service Request 82601
Fiscal Year 2009-2010 Salary Reductions –
Phase III**

Installation Instructions

December 7, 2009
Prepared by Caroline Rider

Information Resources & Communications
Office of the President
University of California

This document provides installation instructions for release 1892. Please review these instructions carefully before proceeding with the installation.

1. *COBOL Program Preparation*

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

"DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

- 1.1 Install, compile, and link the following **modified** programs:

PROGRAM	DB2?	Compile Type	Package Bind?	Done?
PPO1876B	Yes	Batch	No	
PPP130	Yes	Batch	No	
PPP570	Yes	Batch	No	
PPP641	Yes	Batch	No	

2. *Plan Binds*

- 2.1 Bind the following plans:

Bind Member	Done?
PPO1876B	
PPP130	
PPP570	
PPP641	

3. *JCL Changes*

- 3.1 Modify the JCL for program PPP641: **replace** DD PARAMFIL with DD CARDFIL. A sample of this JCL can be found in JCL(RUN641A).

4. *Testing*

- 4.1 Perform installation verification testing as described in the Test Plan. In addition, perform any further local testing.

5. Install in Production

5.1 Place modified objects in production.

- Note that PPO1876B **replaces** the version released with R1876. After Monthly Maintenance to begin January 2010 has run and the EDB has been updated with the Next Year MCB values generated by the January (BOTH) run of PPP570, the prior version of PPO1876B **must not** be used.
