Table Updates: Gross to Net Table
Urgency: Not Urgent (see Timing of Installation below)

This release addresses the following Error Report:

**Error Report #2246**

It has been reported that Dependent Care FSA deductions do not stop upon reaching either the FSA limit (currently $5000) or upon reaching the amount for which the employee signed up which may be less than $5000.

The new DepCare FSA GTN does not have a maximum. However, the old GTN used with SHPS did have a $5000 maximum in the GTN table. The new GTN needs to be updated to include this $5000 maximum. This will solve the problem of exceeding the FSA plan maximum, but not the case of exceeding the employee’s annual amount if it is less than $5000. The latter situation will be resolved at a later date.

**Table Updates**

**Gross to Net Table**

This table, GTN table, defines the attributes of payroll deductions used by PPS. The GTN for DepCare was modified to include a limit of $5,000 in order to prevent an annual deduction total from exceeding the FSA annual limit for DepCare.

**Installation Instructions**

Execute PPP004 to update the following DB2 CTL table with the release transaction.

- Gross to Net Table (02) – Use the transactions in CARDLIB (GTNPROD).

  Please review the transaction. Change “???” to the appropriate priority value for your location.
Timing of Installation

The timing of this release is **not urgent.** It must be installed to prevent the yearly total DepCare deductions from exceeding the FSA limit of $5,000.00.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to Janet.Kennedy@ucop.edu, or call (510)587-6128.
