Re:  Release: 1916
Service Requests: 82806, 82874
Error Reports: 2135
Programs: D21H04E, PPCTHMEU, PPCTHMEU, PPCTR11, PPCTT11, PPEC715, PPHMEHUP
Copy Members: CPCTHEME, CPWSHMEH, CPWSXHME
Include Members: PPPVHMEH, PPPVZHME
DDL Members: PPPVHMEH, PPPVZHME, TBBHEH0C, TBBHEH0A, TBBHEH0A, TBBHEH0A
Bind Members: PPP080
CICS Maps: None
CICS Help: CTT0713, EDB0385, EDB0713
Forms: UPAY552
Urgency: Date Mandated (see Timing of Installation below)

This release addresses the following Service Requests 82806, and 82874, and Error Report 2135:

**Service Request 82806**
Service Request 82806 asks that reporting fields in PPS capture data relevant to Health Sciences (HS).

Service Request 82806 provides the following background information:

*Academic Personnel evaluates the competitiveness of faculty compensation through routine reviews, participation in compensation surveys, and an annual planning process. In addition, matters related to total remuneration are currently being considered by workgroups in two system wide task forces. These activities necessitate the frequent creation of detailed extracts and analyses.*

This request seeks a means to record in PPS additional Health Sciences compensation related details so that they can be readily incorporated in extracts and analyses created using CPS. The enhancement is intended to augment reporting capability only – not to introduce additional compensation related business processes or administration in payroll.

**Service Request 82874**
Service Request 82874 asks that additional valid Special Training codes (EDB 0385) be added as a means to identify employees and Postdoctoral Scholars who should receive Responsible Conduct of Research (RCR) training.

**Error Report 2135**
PPP741 is not reporting the right number of changes applied to the CDB which is the History database of CTL. The process to update changes from CTL against CDB for the Home Department table is not working correctly because the home department location indicator and sub location were not added by R0773 and R1876 respectively to the CDB copy member view of the PPPHMEH (CDB) table.
**Programs**

**D21H04E**  
D21H04E loads several CTL tables into queues for use in CICS Help. It was modified to read the CTL table to retrieve the list of valid Honor Type Codes (EDB0713) from the CTT table to be used in the CICS Help screen.

**PPCTHMEE**  
PPCTHMEE edits the transactions that will update the PPPHME (Home Department) control table. It was modified to add the update of the department type code to the PPPHME table.

**PPCTHMEU**  
PPCTHMEU updates the PPPHME (Home Department) control table. It was modified to add the department type code.

**PPCTR11**  
PPCTR11 prints the Home Department Table (control table 11). It was modified to add the department type code and translation to the PPP0411 report.

**PPCTT11**  
PPCTT11 is the transaction manager for updates to the Home Department Table (control table 11). It was modified to accept and validate the department type code from the transaction card.

**PPEC715**  
PPEC715 performs consistency edits and maintenance on the University Contribution Indicator transaction sets. It was modified to remove the edit to the Academic Programmatic Unit Code (EDB 0660).

**PPHMEHUP**  
PPHMEHUP updates the History PPPHMEH table. It was modified to add the department type code.

**Copy Members**

**CPCTHMEI**  
CPCTHMEI defines the working input for the update of the PPPHME table. A new field was defined for the Home Department Type Code.

**CPWSHMEH**  
CPWSHMEH defines a PPPHMEH CDB row. Three new fields were defined: Home Department Type Code, Department Location Indicator, and Sub Location.

**CPWSXHME**  
CPWSXHME defines storage for the home department table used by other programs. A new field was defined for the Home Department Type Code.

**Include Members**

**PPPVHMEH**  
This include member contains the layout for view PPPVHMEH_HMEH. The new DB2 column HME_DEPT_TYPE_CD was added to the above Include member associated with the CDB PPPHMEH table.

**PPPVZHME**  
This include member contains the layout for view PPPVZHME_HME. The new DB2 column HME_DEPT_TYPE_CD was added to the above Include member associated with the CTL PPPHME table.

**DDL Members**

**TBHME05A**  
This new DDL ALTERS the PPPHME table. The new Home Department Type Code was added to the PPPHME table using the ALTER statement.

**TBHME00C**
This DDL creates the PPPHME table. The new Home Department Type Code was added to this CREATE statement.

**PPPVZHME**
This DDL creates the view PPPVZHME_HME for table PPPHME. Home Department Type Code was added to this CREATE statement.

**TBHMEH4A**
This new DDL ALTERS the PPPHMEH table. The new Home Department Type Code was added to the PPPHMEH table using the ALTER statement.

**TBHMEH0C**
This DDL creates the PPPHMEH table. The new Home Department Type Code was added to this CREATE statement.

**PPPVHMEH**
This DDL creates the view PPPVHMEH_HMEH for table PPPHME. Home Department Type Code was added to this CREATE statement.

**Bind Members**

**PPP080**
This bind member contains bind statements for plan PPP080. PPEC715 was deleted from the member list.

**CICS Helps**
New CICS Help Texts for Special Training Code (EDB0385), and Honor Type Code (EDB0713) were loaded into the CICS Help file. The appropriate CICS Help will be displayed in functions EPER, IPER, IBA1, EHON, and ELIC when PF1 key is pressed. In addition, the Honors Type Code (CTT0713) from the CTT table was added to the CICS Help File.

The Help text associated with EDB0713 was anchored to the Honor Type Code label and data entry field.

**Forms**

**UPAY552**
A box was added to the end of the Home Department Table (Table 11) processing portion of the specification record in columns 76 through 77 for the new HME Department Type Code.

**Table Updates**

**Data Element Table**
PPPDET contains data on each of the EDB data elements, including its format, permitted values, starting position in batch EDB update transactions, and the EDB edit/update routines (consistency, implied maintenance, and Gross-To-Net) that should be triggered when the data element is updated. The Consistency Edit 715 for EDB 0660 (Academic Programmatic Unit Code) was removed. New valid values for EDB 0385 (Special Training Code) were added.

**System Messages Table**
PPPMSG contains the message text, severity, and reporting requirements for error and warning messages. A new message for invalid Home Department Type code was added. Message 08374 that was being used by PPEC715 to validate APU code was deleted.

**Code Translation Table**
PPPCTT contains translations of values of selected data elements; a single value may have multiple entries of different lengths. New HMETYP data element entries and their translations were defined on this table. New code translations for EDB 0711
(License/Certification Code), EDB 0713 (Honor Type Code), and EDB 0385 (Special Training Code) were added. The existing translation for code “E” for EDB 0385 (Special Training Code) was changed.

**Obsolete Objects**
The package bind for PPEC715 is now obsolete.

**Installation Instructions**
A separate Installation Instructions document is provided for this release.

**Test Plan**
A separate Test Plan document is provided for this release.

**Timing of Installation**
The timing of this release is date mandated. Both SR82806 and SR82874 are prerequisite to extensive data entry that needs to begin immediately in order to meet reporting and analysis deadlines for Health Sciences and April LMS deployment for NSF training.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence. If there are any questions, please send electronic mail to Pamela.Torres@ucop.edu, or call 510-987-0741.

Pamela L. Torres
