This release addresses the following Service Requests and Error Reports:

Service Request 82583

Service Request 82583 requires a change to the collection and reporting of employee demographics to comply with new Federal standards for race and ethnicity data.

Service Request 82806

Service Request 82806 requires a change to establish reporting fields in PPS to capture data relevant to Health Sciences (HS) faculty. Phase I, changes to PPS, was completed under Release 1916. Phase II will be covered by this release to derive and move department type code, academic programmatic unit code, patient care flag, degree 1, degree 2 and degree 3 to the CPS file.

Service Request 82979

Service Request 82979 requires a change to pass the actual separation reason code (EDB0141) to the CPS file with no translation.

Service Request 83016

Service Request 83016 requires a change to the web new hire application to accept appointment department code as input at the appointment level. It requires this to be controlled by campuses using the external property file.

Error Report 2276

Error Report 2276 requires the enlarging employee name fields on the employee identification screen of the web new hire application.

Error Report 2279

Error report 2279 aligns the delete button under additional recipients on PAN notification screen of the web new hire application.

Error Report 2280

Error report 2280 requires that the application retain incomplete field entry in various fields “masked” by a pattern in the web new hire application.

Error Report 2281

Error report 2281 requires that the highlights be consistent on the summary screen of the web new hire application.

Error Report 2283

Error report 2283 requires that if there’s no update key available in PS006 and PS008, it should cause an ABEND with useful messaging and logging.

Error Report 2285

Error report 2285 requires that when PS012 gets a fatal error condition from UCIDASN, then content of UCIDWSAS-RETURN-STAT should be displayed.

Error Report 2286

Error report 2286 requires that the focus be on the “Appointment Type” field instead of “Appointment Title” when editing an appointment in the web new hire application.

Error Report 2287

Error report 2287 requires for proper formatting of the RVE screen in the web new hire application.

Error Report 2288

Error report 2288 removes clickable columns from Select Recipient screen (PAN) in the web new hire application.

Error Report 2290

Error report 2290 corrects the behavior of tab key in modal dialogs in the web new hire application.

Error Report 2293

Error report 2293 corrects the “unexpected error” condition when there are no templates in the web new hire application.

Error Report 2297

Error report 2297 requires fixes to the web new hire application related to threat posed by a cross-site request forgery vulnerability.

Error Report 2307

Error report 2307 requires fixes to the web EDB Inquiry application related to processing error when home phone number is not complete 10 digits.
