This release addresses the following Service Request and Error Report:

**Service Request 83220**
SR 83220 asks that the OASDI Deduction percent (System Parameter #2) be changed to 4.2%.

**Error Report 2364**
Error report 2364 reports that expense distribution program PPP520 is not properly selecting the old or new OASDI rate, based on the check date of the transaction.

**Cobol Programs**

**PPP520**
PPP520 sets a current FICA year that is used to determine whether to select the current OASDI and Medicare rates or the prior rates; the current FICA year was not being set correctly, so the prior rates were never selected. PPP520 has been modified to correctly set the current FICA year to the highest check date year encountered in the PAR file PCRs.

**Table Updates**

**System Parameter Table Entry 2 for OASDI Deduction Percentage**
Transactions in PAYDIST.R1962.CARDLIB(PRMPROD) are used to update the OASDI Deduction Percentage to 4.2% for 2011.

**Installation Instructions**
1. COBOL Program Preparation
   At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.
• Install, compile, and link the following modified program:

<table>
<thead>
<tr>
<th>PROGRAM</th>
<th>DB2?</th>
<th>Compile Type</th>
<th>Package Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPP520</td>
<td>Yes</td>
<td>Batch</td>
<td>No</td>
<td></td>
</tr>
</tbody>
</table>

• Bind plan PPP520

2. Execute **PPP004** to update the System Parameters Table (01) with release transactions found in CARDLIB(PRMPROD)

**Test Plan**

A separate Test Plan document is provided for this release.

**Timing of Installation**

The timing of this release is date mandated. The System Parameter update must be implemented in time for the first compute with a 2011 pay date, or the next compute after that if the first 2011 compute has already been run. The PPP520 change must be implemented in time for December Month End expense distribution.
