This release addresses the following Service Request(s):

**Service Request 83264**

Service Request 83264 requests that the Benefits Rates Table be updated via the normal control table update process, using transactions generated from the PIP rate update process. A set of BRT updates should be created for bargaining unit BX from this process.

In order to fulfill the above service request, CTL update transactions are available on the Payroll FTP site. Locations will use these transactions to update the Benefits Rates Table (control table 14).
