Urgency: Not Urgent (see Timing of Installation below)

This release addresses the following Error Report(s):

**Error Report 2418**

This error report notes that some UCOP recipients of PAN messages from UC Davis have reported receiving email messages which were truncated after the preparer’s name. This problem began occurring after UCOP migrated to Exchange 2010. The problem appears to be that the preparer’s name contains nulls when the preparer has been set-up in PAN with a middle name and the presence of nulls in the message causes the email truncation in Exchange 2010.

**Cobol Programs**

**UCPANDIR**

UCPANDIR obtains and formats a record from UC0DIR for the address passed. It was modified to initialize with spaces the variable that stores the concatenated first and middle name. This will prevent the fields from having nulls which causes email truncation in certain situations.

**Installation Instructions**

Install, compile, and link the following modified programs:

<table>
<thead>
<tr>
<th>PROGRAM</th>
<th>DB2?</th>
<th>Compile Type</th>
<th>Package Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>UCPANDIR</td>
<td>Yes</td>
<td>CICS, SPAS</td>
<td>Yes</td>
<td></td>
</tr>
</tbody>
</table>

Perform installation verification testing as described in the Test Plan. In addition, perform any further local testing.

Place modified objects in production.
Test Plan

There are no database loads provided with this release. Use any existing test data in the CICS region.

1. In the UC0DIR table, review the entry for your user ID (column DIR_ADDRESS). If column DIR_MIDDLE_NAME is blank, update to a non-blank value. If no entry exists for your user ID, create a new one (refer to an existing entry as an example).

2. Bring up the ERET screen for any employee and update the following fields (with any valid values) : DepCare FSA Annual, Monthly, Eff Date and Term Date. This should trigger a PAN and bring up the PAN Comments Entry screen.

3. In the PAN Comments Entry screen, press F10 to go to the PAN Notification Preparation screen.

4. Go to the bottom of the Reviewers list and add a new reviewer specifying your email address. Press F5 to update. A PAN message will be sent to the reviewer.

5. Verify that the message shows the Preparer field with a non-blank middle name and that the message is not truncated after the Preparer field.

Timing of Installation

The timing of this release is not urgent.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to Robert.Franks@ucop.edu, or call phone number (510) 987-0395.
