Cobol Programs

See the Detail Design Document for program details.

Copy Members

See the Detail Design Document for copylib details.

Bind Members

See the Detail Design Document for bind member details.

Web Files

The PPS web applications are contained in runtime .ear and source archive .zip files. Details on the contents of these files can be found in the detail design document.

WEBEAR and WEBZIP

WEBEAR and WEBZIP contain the java PPSWeb application, which controls the PPS login and main menu screens. The main menu has been redesigned and four new links have been added for “Separation”, “Leave of Absence”, “Intercampus Transfer” and “IDOC”. WEBEAR contains the runtime code .ear file and WEBZIP is the source code archive .zip file.

EDBIEAR and EDBIZIP

EDBIEAR and EDBIZIP contain the java EDBInquiry application. EDBIEAR contains the runtime code .ear file and EDBIZIP is the source code archive .zip file.

EDBUEAR and EDBUZIP

EDBUEAR and EDBUZIP contain the java EDBUpdate application. EDBUEAR contains the runtime code .ear file and EDBUZIP is the source code archive .zip file.

WEBSVZIP

WEBSVZIP is the source code archive .zip file for the PPSWebServices runtime library which is included with each PPS web application. Modifications were made to support the “Separation”, “Leave of Absence”, “Intercampus Transfer” and “IDOC” modules.

Installation Instructions

A separate Installation Instructions document is provided for this release.

Test Plan

A separate Test Plan document is provided for this release.

Special Note on Campus Customizations

Campus Customizations are restricted as follows:

1. Java code and web components *should not be modified by campuses*. Any customizations should be handled through the mechanisms provided via the application properties file and as described in the Campus Customization Guide.
2. CICS Web services: No modifications to WSDLs should be made. Modifications to COBOL code should be reviewed with base PPS architects.
3. Other mainframe code with existing customizations will continue to be maintained locally.
4. The feature to add addition fields has been greatly enhanced. Please refer to Campus Customization Guide for details. Previously added fields will not work with the new release. These fields need to be redefined in the new format.
5. A new feature, called "Navigation Wizard", has been added to the EDB Update application. This is optional and fully customizable by campuses. Please refer to Campus Customization Guide for details.
6. A new feature has been added for partial FAU components entry and derivation. Please refer to Campus Customization Guide for details.
7. Two new options have been added to display/hide "Awards" panel and to display/hide "Employee Unit Code" field.

Timing of Installation

The timing of this release is **not urgent**.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to rajeev.gupta@ucop.edu, or call (510) 987-9695.
