Execute PPP004 to update the following DB2 CTL table with release transactions.

- Benefits Rates Table (14) – Use the transactions in CARDLIB (BRTPROD).

**Timing of Installation**

The timing of this release is Date Mandated.
The supplied Benefits Rates Table transactions must be applied to the control tables prior to the first compute for July 2012 earnings (i.e., the BW ending July 7 and computing on or about July 12) and after June Payroll processing.
