Re: Release: 2038
Service Requests: 83695
Error Reports: None
Programs: None
Copy Members: CPWSTART
Include Members: None
DDL Members: None
Bind Members: None
CICS Maps: None
CICS Help: None
Forms: None
Table Updates: System Messages Table
Urgency: Urgent

This release addresses the following Service Request:

Service Request 83695

Service Request 83695 provides the following background information:

“ERIT was deployed in June 2011 as PPS Release 1983 and ran from July 1, 2011 to June 30, 2012. It closely resembles the predecessor program START which expired December 31, 2010. UCOP HR Policy has extended ERIT until June 30, 2014 after approval from the Public comments.”

Service Request 83695 asks for changes to support the extension of ERIT to June 30, 2014

Copylib

CPWSTART
This copy member was modified to change the ERIT end date to '2014-06-30'.

Installation Instructions

Copylib Member Installation

Install the following modified copy member:

<table>
<thead>
<tr>
<th>Copylib Members</th>
<th>Installed?</th>
</tr>
</thead>
<tbody>
<tr>
<td>CPWSTART</td>
<td></td>
</tr>
</tbody>
</table>
**COBOL Program Preparation**

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

"DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

Compile and link the following unmodified program:

<table>
<thead>
<tr>
<th>PROGRAM</th>
<th>DB2?</th>
<th>Compile Type</th>
<th>Package Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPEC156</td>
<td>No</td>
<td>Dual</td>
<td>No</td>
<td></td>
</tr>
</tbody>
</table>

**Control Table Updates**

Execute PPP004 to update the following DB2 CTL tables with release transactions.

- System Messages Table (08) – Use the transactions in CARDLIB (MSGPROD)

**Test Plan**

This test plan addresses the test runs and cases constructed to verify the correct installation of this release.

1. **Employee Data Base (EDB) Initial Load (LOADEDB)**
   
   **Description:**
   
   This job loads the DB2 EDB database.
   
   **Verification:**
   
   Ensure that the DB2 EDB has been successfully restored by verifying normal completion of the job and ensuring that all tables have been successfully loaded into the data base.

2. **Control Table (CTL) Initial Load (LOADCTL)**
   
   **Description:**
   
   This job loads the DB2 CTL database.
   
   Note: Message Table updates in the CARDLIB member MSGPROD have already been applied to the PDS members used for loading the DB2 CTL database.
   
   **Verification:**
   
   Ensure that the DB2 CTL has been successfully restored by verifying normal completion of the job and ensuring that all tables have been successfully loaded into the data base.

3. **Test CICS screen – ELVE**
   
   **Description:**
   
   On the CICS ELVE screen, set up ERIT for employee 33333010 with a START/ERIT Reduction percentage of 20, START/ERIT Begin Date of 100111 and START/ERIT End Date of 063014, then press PF5 to update.
Verification:
Verify that there are no error messages and the employee was successfully updated. You can also verify the updated data on the PPPEBT table by checking that the START_END_DATE for this employee is 06/30/2014.
**Timing of Installation**

The timing of this release is **urgent**.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

Functional questions should be addressed to Ken Smith of Human Resources at (510) 287 3837 or Kenneth.Smith@ucop.edu. If there are any technical questions, please send electronic mail to Sreelekha.Sen@ucop.edu, or call 510-987-9814.
