This release addresses the following Service Request(s):

**Service Request 83750**

NRA Postdoctoral Scholars with only a Fellow or Paid Direct appointment are subject to imputed income on the value of the health and welfare benefits. NRA Postdoctoral Scholar-Fellow and NRA Postdoctoral Paid Direct appointments with a supplementary Employee appointment of as little as 1% have the value of the health and welfare benefits excluded from imputed income.

**COBOL Programs**

**PPP771**
Program PPP771 was modified to change the manner by which PPS excludes the value of NRA Postdoctoral Scholar-Fellow/Paid Direct health and welfare benefits from the imputed income process when the individual has a supplementary Employee appointment. PPS needs to employ the same criteria that would normally qualify a University employee for Medical benefits in order to exclude the value of NRA Postdoctoral Scholar health and welfare benefits from imputed income.

**Installation Instructions:**

**COBOL program preparation**

At UCOP, all Cobol programs pass through the DB2 pre-compiler, whether or not programs contain embedded SQL, to resolve INCLUDE references. Your site may have different requirements.
"DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

Install, compile, and link the following modified programs:
