This release addresses the following Service Request:

Service Request 83791

R2033 (June 2012) modified PPS so that benefits coverage ends on the last day of an employee’s separation month, except for a short list of separation codes where the prior practice of an extra month of benefits coverage continues. After several months of experience with the modification, campuses have recommended that the “IT” (inter-location transfer) separation reason code be added to the list. When employees transfer between locations, it is operationally difficult to take benefits deductions in the employee’s first month at the new location.

Programs

PPEI330

PPEI330 performs maintenance on separation actions for insurance enrollments. This program is modified to add the Separation Reason Code value of ‘IT’ to the list of excluded separation reasons.

PPP400

PPP400 performs Gross-to-Net processing within computes and creates a PAR file from the EDB and the preliminary PAR file with gross-to-net activity. This program is modified to add Separation Reason Code ‘IT’ as one of the reasons that allow an extra month of benefits.

Installation Instructions
COBOL Program Preparation

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

Install, compile and link the following modified program:

<table>
<thead>
<tr>
<th>PROGRAM</th>
<th>DB2?</th>
<th>Compile Type</th>
<th>Package Bind?</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPP400</td>
<td>Yes</td>
<td>Batch</td>
<td>No</td>
<td></td>
</tr>
<tr>
<td>PPEI330</td>
<td>No</td>
<td>Dual</td>
<td>No</td>
<td></td>
</tr>
</tbody>
</table>

Plan Binds

Bind the following plan:

<table>
<thead>
<tr>
<th>Bind Member</th>
<th>Done?</th>
</tr>
</thead>
<tbody>
<tr>
<td>PPP400</td>
<td></td>
</tr>
</tbody>
</table>

Test Plan

This test plan addresses the test runs constructed to verify the correct installation of this release.

Employee Data Base (EDB) Initial Load (LOADEDB)

Description:
This job loads the DB2 EDB database.

Verification:
Ensure that the DB2 EDB has been successfully restored by verifying normal completion of the job and ensuring that all tables have been successfully loaded into the data base.

Control Table (CTL) Initial Load (LOADCTL)

Description:
This job loads the DB2 CTL database.

Verification:
Ensure that the DB2 CTL has been successfully restored by verifying normal completion of the job and ensuring that all tables have been successfully loaded into the data base.

Run RUN400 (PPP400)

Description:
RUN400 creates the Payroll Audit Record Report (PPP4401).

After the successful batch installation, submit job RUN400 supplied with this release to test the correct installation of the program.

Verification:
After the successful completion of RUN400, compare deductions for employee 501000074 on PPP4401 that was produced locally with the release supplied version. Verify that deductions were taken for BC Lumenos, ARAG Legal, Vision Plan, Supplemental Disability, Supplemental Life, AD&D, Dental, Depcare FSA, and Health FSA.

**Timing of Installation**

The timing of this release is **Not Urgent**.

As usual, campuses are encouraged to install this release in a timely fashion.

Functional questions should be addressed to Kenneth Smith at (510)287-3837 or email Kenneth.Smith@ucop.edu. If there are any technical questions, please send electronic mail to Nadine.Schumaker@ucop.edu, or call 510-587-6108.
