Table Updates: System Parameters Table
Urgency: Date Mandated (see Timing of Installation below)

This release addresses the following Service Request:

**Service Request 83957**

Service Request 83957 provides the following background information:

“Subsequent to the 2011 March Regents meeting, $1.1 billion was transferred to UCRP to close the funding gap for FY2010-11 and approximately $935 million was transferred in July 2011. The $1.1 billion transfer was achieved by advancing funds from the Short-term Investment Pool (STIP) and creating a note receivable that will be paid back through campus assessments over a 30-year amortization period. The interest and principal repayment for this Note is to be reset each year and is currently set at 2.57 percent interest for FY2013-14. The $935 million transfer was achieved through external financing. The interest rate and principal repayment for the external financing is also to be reset each year and is 2.00 percent interest only for FY2013-14. Given these rates, the overall interest cost for the University as a percentage of estimated covered compensation is 0.66% for FY2013-14.”

Service Request 83957 asks to update the PPS System Parameter Table with the FY 2013-14 UCRP Supplemental Assessment Rate of 0.66%.

**Table Updates**

System Parameters Table

For SR83957, the UCRP Supplement Rate (parameter 289) has been updated with the new rates.
Installation Instructions

Execute PPP004 to update the following DB2 CTL table with release transactions.

- System Parameters Table (01) – Use the transactions in CARDLIB (PRMPROD)

Timing of Installation

The timing of this release is **date mandated**. PRM table update transactions must be applied to the control tables after June end Monthly Maintenance, but prior to the 1st Bi-weekly with July earnings. Please target the pay cycles listed below.
