This release addresses the following Service Request and Service Now Ticket:

**Service Request 83932**
Business users brought to our attention that data was incorrect on their TCT (Title Code Table) Report for SMG and MSP titles. Some grades types were displaying wrong grade information and new MSP grade types for Career Tracks were not presented.

Service Request 83932 asks to modify the report program so that it displays correct grade information for SMG and MSP titles.

**Service Now Ticket – RITM0014866**
Service Now Ticket RITM0014866 mentions that modifications are required to program PPCTR33 so that grade information is accurately presented.

**Programs**

PPCTR33 prints the Title Code Table (control table 33). This program was modified to correctly display all grade information.
