This release addresses the following Service Request:

**Service Request 100699**

Service Request 100699 requests that modifications be made to the PPP6005 UI Wages and California SWT Exceptions Report to include all employees with invalid first or last names. This will allow campuses to correct the name on the EDB. Invalid names are identified as names with other than alpha, blank or the following allowed characters: '.&"/

**PPTAXUIR**

PPTAXUIR produces the UI reports. The PPP6005 report will now also display employees whose names contain characters other than alpha, blank or the following allowed characters: '.&"/

**Installation Instructions**

**COBOL Program Preparation**

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.
Install, compile and link the following modified programs:

<table>
