Notes:

Union Roster Holiday: The final 2009 roster run will be the one scheduled on Monday, 12/14/09, producing the W2DEC09 roster file. There will be no W3DEC09 or W4DEC09 run. The W1JAN10 roster file should be scheduled for production on Monday, 01/04/10.

IVR/Web transaction Holiday: IVR/Web transaction generation will be on a holiday schedule from Wednesday, 12/23/09, through Friday, 01/01/10, so no actual transactions will be generated on those days. Empty transaction files containing only batch headers will be produced each of those afternoons, using the normal naming conventions. The last normal transaction generation before the holiday period will occur the afternoon of Tuesday, 12/22/09. The next normal transaction generation will occur the afternoon of Monday, 01/04/10.

The nightly processing of IVR update files submitted by locations will continue for those locations where jobs may continue to run, although we do not require delivery of such files on holidays. Any update activity submitted by the cutoff time on Monday through Friday will be posted to the IVR database early the following morning.

SLIS Weekly File Holiday: The three weekly files (employee, appointment, and distribution) scheduled on Monday, 12/28/09, should not be produced. The files should be produced as usual on Monday, 01/04/10.
